

FORM I - Pesticide Application Record Sheet

1. Start & finish date
2. Operators name
3. Location of where pesticide was applied
4. Type of equipment used
5. Name of pesticide used
6. Amount of concentrate used – if you used 2 pesticides together you can record both on the same form
7. Total quantity applied – total amount of water, oil or other mixed with the concentrate.
8. Size of block sprayed - & order if more than one.
9. Estimate wind speed direction – if conditions change dramatically during spraying also record.
10. Other weather conditions – only required if specified on the label or national registration authority permit.
